Notes:

reporting for Children/Young People

- Parents/ carers should be advised that you are making a referral unless this might put the child at risk or cause any delay in referring
- **Local Authority Designated Officer (LADO) Referrals**
If you have concerns about an adult working with a child under the age of 18 that you would like to report, access the [LADO](#) page for more information.

Notes:

reporting for Adults at Risk

It is essential that wherever possible it is the adult at risk who will decide on the chosen course of action, taking into account the impact of the adult at risk's mental capacity where relevant.

However, the people and organisations caring for, or assisting them, must do everything they can to identify and prevent abuse happening wherever possible and evidence their efforts

Remember ALL notes will be disclosable should a formal or criminal investigation occur. *Ensure that your notes are signed, dated, professional, separate opinion from fact, are recorded verbatim using the same words as were used during the disclosure.*
